# ZODIAC

## Efficient and reliable

**Easy to install and**

**immediately operational**

The Classic is easily installed directly to the suction point, with no extra equipment needed. (skimmer or suction point).

**It is autonomous and**

**always on top form.**

It can remain permanently in the pool. A flow tester enables one to check that the Classic is adjusted for optimal performance.

**Silent**

The Classic is totally silent. The Baracuda diaphragm's technology generates no noise.

**Reliable**

The Classic is guaranteed for 2 years. Its exclusive technology and extra-strong hoses guarantee unparalleled longevity. The Classic functions in complete safety without electricity.

## Zodiac, mastering the elements.

Renowned worldwide for the quality and reliability of its products in the aeronautical and marine sectors, Zodiac has now brought its expertise to swimming pools, to bring you a full range of pools, automatic pool cleaners and water treatment systems.

Backed by Baracuda technology, expertise and experience, Zodiac brings you the reassurance of top quality equipment in terms of both design and performance.

A real guarantee of efficiency and peace of mind!

# Classic

## The sure way to clean standard pools

The Classic guarantees a thorough clean of your pool thanks to its anti-obstacle disc and its special deflector, preventing any risk of sticking. Its hydrodynamic design improves its movement capacity, and its extra-strong translucent pipes make it extremely robust. The "Easy Access System" principle, exclusive and highly efficient Baracuda technology, enables fast and effortless changing of the Classic's diaphragm.

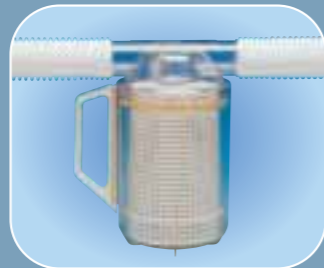

### The Classic is ideal for which type of pool?

- in ground pools
- Rectangular, oval or complex shapes
- flat bottoms, gentle slopes or diving area with complex slopes
- all surfaces (tiles, liner, Polyester skin, reinforced PVC, painted concrete)

The Classic is supplied with a complete accessory kit

*The leaf trap is available as an extra, designed to collect the leaves sucked in by the Classic before they reach the pump's pre-filter.*

## The automatic anti-sticking cleaner with a hydrodynamic design

### Easy to maintain

The exclusive "Easy Access System" Baracuda technology makes cleaning or changing the diaphragm fast and easy.

### Robust

Extra hard-wearing shell guaranteeing longevity. Extra-strong translucent hoses.

### Anti-sticking

Special circular anti-sticking deflector preventing sticking against the ladders or in the corners of your pool. An anti-obstacle disc that enables the Classic to avoid the lights and the drain on the bottom of your pool.

### Hydrodynamic design

The hydrodynamic shell offers minimal resistance in the water providing optimal movement capabilities.

### Suction power

The diaphragm, exclusive Baracuda technology, sucks in all types of debris with astonishing efficiency and enables the Classic to move and clean at maximum speed.
