

SUPER G+

ZODIAC

ZODIAC

Autonomous and highly effective

Easy to install

The Super G+ is delivered fully assembled. Easy to install, it is connected to a skimmer or to the vacuum point, without any extra equipment.

Making your life easier

The Super G+ can remain in your pool at all times. It cleans tirelessly, avoids all obstacles and makes light work of right-angles and steep sides. To increase its efficiency and that of the skimmers, the Super G+ automatically adjusts the suction flow with its new automatic flow adjustment valve. The exclusive Baracuda "Easy Access System" technology enables the diaphragm to be easily reset or replaced.

Accessories

The Super G+ is supplied with 12 metres of long-life hose, a leaf trap, an automatic flow valve and a complete accessory kit.

Silent

With Baracuda diaphragm technology, the Super G+ is silent.

ZODIAC, mastering the elements.

Renowned worldwide for the quality and reliability of its products in the aeronautical and marine sectors, Zodiac has now brought its expertise to swimming pools, to bring you a full range of pools, automatic pool cleaners and water treatment systems.

Backed by Baracuda technology, expertise and experience, Zodiac brings you the reassurance of top quality equipment in terms of both design and performance.

A real guarantee of efficiency and peace of mind!

BARACUDA[®]
Automatic Pool Cleaners

BARACUDA[®]
Automatic Pool Cleaners

High-performance cleaning of the floors and walls

The Super G+ - the champion of autonomy

The Super G+ guarantees a complete clean of the floor and walls of even the most difficult pools. Designed to reach every last little nook and cranny, the Super G+ avoids all obstacles and climbs the walls, thanks to its double open disc. Fitted with a new, longer-life diaphragm, its cleaning power has been optimised to an even greater degree. The Super G+ has become ultra-strong, thanks to its new, dual-colour hoses constructed with specific materials and treated with a special coating giving the grooves an even longer life-span. To increase efficiency, the Super G+ has been equipped with a new automatic valve and delivered with a leaf trap.

What type of pool is the Super G+ suitable for?

-  • inground pools
-    • rectangular, oval or custom shapes
-     • all types of pool floors: flat, gently sloping, diving area with complex slopes or diamond-shaped diving area
-  • all surfaces (tiling, liner, Polyester skin, reinforced PVC or painted concrete)

The guarantee

The Super G+ automatic pool cleaner is guaranteed for 3 years.

Reasons why it produces an even better result

Climbs the walls

The Super G+'s double open disc enables it to avoid obstacles and to climb the walls of all types of pools, with even the sharpest of angles.

Articulated joint

An articulated joint for maximum mobility: the rotating swivel improves the movement capacity of the Super G+.

Anti-blockage

The deflector guarantees maximum efficiency for the Super G+, preventing it from becoming stuck on the steps or in the corners of your pool.

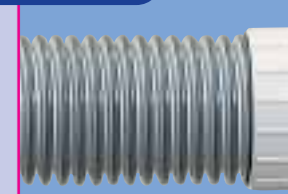

Maximum efficiency

Super G+ is delivered with a leaf trap to collect the leaves that are sucked in before they reach the pump basket.

Super-strength hoses

The Super G+'s new hoses are outstandingly reliable and durable. The grooves are covered with a special coating offering extra strength. Assembly is easy.

NEW

Optimal balance

This feature ensures that the Super G+ retains perfect adhesion when moving across the floor or up the walls.

Suction power

The new generation diaphragm has been designed and constructed using new materials to make it last even longer. It is designed to clean all types of debris with astonishing efficiency.

Automatic adjustment

The Super G+'s new automatic flow adjustment valve automatically adjusts the suction flow to ensure the pool cleaner receives optimum suction.
